

Suchismita Kanapala – Senior QA Engineer

Contact: +91 9066101427 | Email: suchismitakanapala@gmail.com | LinkedIn: <https://www.linkedin.com/in/suchismita-kanapala-683aa5278/>

Professional Objective

Seeking a position in the information technology industry where I can utilize my skills and abilities while contributing to organizational success. I aim for professional growth while being resourceful, innovative, and adaptable. Recognized with a Spot Award for outstanding performance and a Team Award for excellence in project delivery.

Technical Skills

- Testing Tools : **Manual Testing, Selenium, Cucumber (Selenium WebDriver), TestNG, Rest Assured**
- Testing Types : **Functional Testing, Non-Functional Testing, Frontend Testing, Web, API, Manual Testing, Automation Testing, API Testing, Database Testing**
- Programming Language : **Core Java**
- Database : **MS SQL, Mongo DB**
- Control & CI/CD : **Git, GitHub, Docker, Jenkins**
- Agile & Project Management : **Jira, Scrum, Agile methodologies**
- Operating System : **Windows**
- IDE : **IntelliJ IDEA, Eclipse IDE**
- Tools : **Postman, JMeter, Chrome Developer Tools, Octopus, Bamboo, Forseti (Client Developed tool), Jenkins**

Functional Skills

- CRM
- Multi-tenant product development
- Gift Card and coupon Industry

Senior Software Engineer

Creative Synergies Group, Bengaluru

(Oct 2023 - Present)

Professional Summary

- Over **5.9 years** of experience in software testing, including Web Testing (Selenium WebDriver with Java), API Testing (Rest Assured), and Manual Testing.
- Experienced in handling CRM applications and managing gift card transaction workflows.
- Strong understanding of **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)**.
- Proficient in **manual testing**, functional testing, smoke testing, GUI testing, ad-hoc testing, cross-browser testing, API testing, and regression testing.
- Skilled in automation tools like **Cucumber (BDD) with Selenium WebDriver** for web application testing.
- Experience in **API testing** using Rest Assured with Cucumber BDD.
- Implemented **Behavior-Driven Development (BDD) frameworks** using Selenium Java.
- Familiar with the **Page Object Model (POM)** design pattern for Selenium WebDriver.
- Expertise in **TestNG framework**, **Maven** for project builds, and **Jenkins** for Continuous Integration.
- Hands-on experience with **CI/CD tools** like GitHub Actions, Bamboo (Octopus), Jenkins, and Docker for build and deployment.
- Skilled in using **XPath** for identifying UI objects.
- Basic knowledge of **JMeter (JMX)**, including API script writing and execution.
- Experience in **SQL database testing** and **MongoDB**.
- Exposure to **performance testing**.
- Knowledge on Appium mobile automation testing (Android)
- Proficient with **Firefox, Chrome Developer Tools, and Phantom**.
- Experienced in defect tracking tools like **JIRA**.
- Experience in leading teams and collaborating with managers for project task allocation.
- Active involvement in **requirements gathering, analysis, test case creation, and execution**.
- Adaptable to new environments, a strong team player, with excellent communication and analytical skills.
- Enthusiastic learner, confident, sincere, and committed to delivering quality results.
- Worked as a **Level 3 (L3) Production Support Engineer**, addressing critical production issues and ensuring smooth operations.
- Experience in **GDPR (General Data Protection Regulation) testing**.

Professional Experience

Senior Software Engineer – *Creative Synergies Group, Bengaluru* (Oct 2023 - Present)

Test Module Lead – *Happiest Minds Technology, Bengaluru* (Mar 2019 - Sep 2023)

Software Test Engineer – Purview Services (Wipro Ltd), Bengaluru (Jun 2018 - Nov 2018)

Project Summary

Project #1: Biscred (CRM)

Description:

Biscred is developed to simplify commercial real estate prospecting by providing industry-specific, accurate information. The idea for Bisreach emerged from the need for a specialized prospecting tool in commercial real estate. The various source of getting data such as Bisreach and LinkedIn profiles. The application is accessible to admin-level users, researchers, and reviewers.

Responsibility:

- Worked in an **Agile methodology** as a test developer.
- Developed and maintained **feature files** for behavior-driven testing by analysing test cases.
- Understood business requirements, prepared **test scenarios and test cases** for functional testing.
- Developed **automation scripts for UI** testing.
- Implemented **BDD framework** using Cucumber.
- Logged, reported, and tracked defects using **JIRA**.
- Performed **functional, regression, smoke, system, and GUI testing** and documented results.
- Configured **GitHub Actions using Docker** for regression testing.
- Managed the team by **reviewing test cases, assigning tasks, and participating in planning meetings**.

Technologies: Selenium, Java, BDD (Cucumber), TestNG, JIRA, CI/CD (Docker), Agile

Testing Areas: Manual Testing, Web Automation, API Testing (Manual)

Duration: 2024 – Present

Client: Biscred

Project #2: QwikPos2 (Transactions)

Description:

QwikPos2 is a multi-tenant administrative application that allows end-users to view and perform various actions on customers' gift cards, such as:

- **Updating expiry dates and customer details**
- **Redeeming and cancelling redeem amounts**
- **Reloading and cancelling reload amounts**
- **Activating and cancelling gift cards**

Responsibilities:

- Understood business requirements, prepared **test scenarios and cases** for functional and non-functional testing.
- Wrote **automation scripts** for UI and API testing (Rest Assured) using Cucumber.
- Implemented **BDD framework**.
- Performed **functional, regression, smoke, system, cross-browser, and GUI testing** with proper documentation.
- Provided **L3 Production Support**.
- Conducted **GDPR compliance testing**.

Technologies: Java, Selenium, Cucumber (BDD), SQL, MongoDB, Rest Assured

Testing Areas: Automation (UI, API), Manual

Duration: 2021 – 2023

Client: QwikSilver

Project #3: XNP API (Transactions)

Description:

The objectives of this API are to provide more structured framework. It's a single end point where all transactions can be performed. It supports below single or bulk transactions

- Generate a card (Create and Issue)
- Update Expiry

- Update Customer Details
- Redeem, Cancel Redeem and Reverse Redeem Amount
- Reload, Cancel Reload and Reverse Cancel Reload Amount
- Activate and Cancel Activate Card

Responsibility:

Understanding the business requirements, preparing test scenarios, test cases for functional testing and non-functional testing.

- Performing functional, regression, smoke, API testing.
- Writing automation scripts using cucumber BDD(APIs)
- Performing functional, regression, smoke, API testing along with test result documentation.

Technologies: Automation testing using cucumber (BDD), SQL, Rest API, JMeter

Testing Area: Automation (API)

Duration: 2022- 2023

Client: QwikSilver

Project#4: Corporate Service

Description:

Corporate Service is a customer user facing application. The end user can get to see various details regarding his entitled cards in this application.

User can view the below details related to his entitled cards.

- Discount
- Discount Type
- Discount Amount
- Status
- Product Code/ Name

If there is no corporate associated to the logged in user then he/she will not see any product.

Responsibility:

Understanding the business requirements, preparing test scenarios, test cases for functional testing and non-functional testing.

- Involved from very starting in Implementation of POM Framework.
 - Performing functional, regression, smoke, system, cross browser and GUI testing along with test result documentation.
- Writing automation scripts using selenium java

Honors and Awards

- Recognized by clients and awarded by **CSG** for outstanding performance.
- Received the "**Insta Award**" from Happiest Minds Technologies for exemplary work.
- Honored with the "**Super Star Award**" for exceptional contributions at Happiest Minds Technologies.
- Received appreciation by clients for delivering defect-free UAT results within the scheduled timeline.

Educational Qualification

- Completed **MCA** from Biju Patnaik University of Technology (BPUT)
- Completed **BCA** from Berhampur University (BU)

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
