

Abhishek Pal

Java Software Developer

✉ palabhishek1208@gmail.com ☎ 9131262027 📅 08/12/1998 🇮🇳 Indian ♂ Male 🚪 Unmarried

🌐 <https://www.linkedin.com/in/abhishek-pal-7628301a9> 📍 Indore, Madhya Pradesh

PROFILE

- Self-motivated software developer with **4.3 years** of progressive experience in IT field.
- Worked on Micro-Services & Monolithic architecture.
- Contribute to all stages of software development life cycle
- Design, implement and maintain Java-based applications that can be high-volume and low-latency
- Identify and resolve any technical issues arising.
- Write well designed, testable code.
- Conducting software analysis, programming, testing, and debugging

EDUCATION

Bachelor Of Engineering
Malwa Institute of technology
CSE with 7.5 CGPA

07/2016 – 06/2020
Indore, India

Higher secondary school
Bharat bal vinay mandir
PCM with 61%

2016
Indore, India

Secondary school
Jineshwar public school
All subject with 72%

2014
Indore, India

TECHNICAL SKILLS

- Project Architecture : Micro-Service, Monolithic
- Java (Up to 11)
- Frameworks : Spring (Core,Mvc,Boot), Hibernate
- Database : Mysql, HBase
- Build Tool : Maven
- Version Control System : Git (Hub/Lab)
- Operating System : Linux, Mac, Windows
- Code Testing : Mockito, JUnit
- IDE : IntelliJ, Spring Tool Suite, GoLand
- Project Management Tool : Jira
- Additional : Redis, Kafka, Docker, Kubernetes & Helm

ROLE AND RESPONSIBILITIES

- Execute full software development life cycle (SDLC)
- Responsible for understanding and analyzing the project requirements.
- Provided technical solutions of the project requirements
- Develop flowcharts, layouts and documentation to identify requirements and solutions
- Write well-designed, testable, robust, high performance, well-documented code
- Produce specifications and determine operational feasibility
- Troubleshoot, debug and upgrade existing systems

WORK EXPERIENCE

SDE-I
Razorpay

11/2022 – present
Remote Work, Indore MP

- Working on affordability part of the product.
- Handling Emi and Offers payment processing
- Implement the feature by go through the Tech Specification, HLD & LLD
- Integrate issuer bank with emi flow
- Handle the L3 issue. identify the RCA and give solution for the same
- Manual sanity of the feature with POS device

Software Engineer
Rakuten Symphony

09/2020 – 11/2022
Indore, MP

- Handled module which is responsible to optimise the network.
- End to end development of spring boot project and testing as well.
- Identify the production bugs and provide optimise solution for the same.

- Deployment of microservices by using Docker, kubernetes & helm chart.
- Integration of application monitoring services like java melody.

PROJECTS

Credit card emi integration

Tools and Technologies : Java, Spring boot, mysql, maven & IntelliJ IDE

- Integrate the end-to-end credit card emi for the some issuers
- Made the UI side changes to display the new issuer details over the portal
- Did reporting related changes
- End-to-end manual sanity of the feature
- Wrote the IT's and UT's for each and every uses cases

Co-Subvention Integration

Tools and Technologies : Java, Spring boot, mysql, maven & IntelliJ IDE

- Implement the feature to provide co-subvention functionality to the merchants
- Co-Subvention means more then one entity will subvent the offers amount
- End-to-end manual sanity of the feature
- Wrote the IT's and UT's for each and every uses cases

Brand Emi - Instant Subvention

Tools and Technologies : Java, Spring boot, mysql, maven & IntelliJ IDE

- Implement the Instant subvention for brand emi for the merchant
- Along with this project did existing code refactoring to improve the performance if the code
- Along with backend changes did UI side changes as well to show new subvention type over the portal
- End-to-end manual sanity of the feature
- Wrote the IT's and UT's for each and every uses cases

Foresight - Network Optimization

Tools and Technologies : Java, Spring boot, mysql, maven & STS IDE

- Foresight is a real time analytics platform, which leverages and co-relates data from multiple sources,
- Enabling discovery and valuable insights about end-to-end Network.
- Foresight supports Multi-Vendor, Multi-technology and is closely integrated with each Network element.
- Hence enabling end-to-end network visualization, configuration management, performance management and optimization.
