Objective

A Versatile IT Professional with vast 7.5+ years of experience in Manual and Automation Testing and Management; in search of higher roles in similar industry to enhance skill set and to contribute to the success of the organization

Professional Summary

Expertise in Understanding and Analyzing Test Requirements, Tracking changes and maintenance of Test Requirements, Clarification Tracker, Requirement Traceability Matrix and various other test artifacts Well acquainted with all phases of SDLC and STLC. Proficient in devising all the artifacts of testing such as Test Scenarios, Test Cases, Defect Reports and Test Summary Report. Experience in Test Execution phase with exposure around Smoke/Sanity, System, Integration, Regression, Re-Testing & Production Verifications Strong Experience in Automating Web Application Testing using Selenium WebDriver with BDD framework. Writing Test Scripts using Element locators, WebDriver methods, Java programming features and TestNG Annotations. Experience in Data-driven Testing, Cross browser testing and Parallel Test execution using Selenium WebDriver, TestNG, Maven Experience in designing Pytest using BuiltIn & User defined Libraries. Possess Experience with automating APIs using Rest Assured and BDD Framework & Cypress Framework, as well to assert/ ascertain response data or use response data to help drive test-data for UI automation Proficient with Cucumber BDD and its usage to help drive automation. Knowledge around Features, Data Tables & Scenarios/Scenario-Outlines and Hooks Possess experience in maintaining/configuring Git Hub, BitBucket, Jenkins CI/CD Pipeline focused on automation jobs and publishing reports In a part of Automation team management, Automation Test Management, Leading and delivering the project on time

Technical Skills

Technology

- GitHub
- BitBucket
- Jenkins
- Agile
- Hybrid Framework
- Cucumber BDD framework
- Mobile Testing

Programming

- Java
- Python
- Selenium/Selenide

Tools

- PostMan
- Jira
- TFS, MTM
- TestNG
- Cypress

Professional Experience

Senior Software Engineer at Diligent(04/2024 - 12/2024)

Project:

Technologies Used:

- Collaborating closely with other team members and departments Working as individual contributor to maintain the framework.
- Net Framework Delivering the release on time as per the need and requirement of the project Detecting and tracking the support tickets, issues, task to the closure Providing support and documentation in confluence.

Senior Tech Consultant at EY LLP(01/2022 - 04/2024)

Project:

Technologies Used:

- Collaborating closely with other team members and departments Operating Test Plan Creation, Test Estimation and Strategy Planning Prepared high level test scenarios and test cases; got them reviewed by PO and QA Manager respectively Executing all levels of testing (System, Integration, and Regression)&BDD selenide Designing and developing automation scripts for End to End testing.

Software Tester at Neles(Valmet)(05/2021 - 11/2021)

Project:

Technologies Used:
