PROFILE

Experienced Front-End Developer with over 3 years of hands-on expertise in building modern, high-performance web applications using React.js. Adept at collaborating with cross-functional teams to deliver clean, maintainable code and innovative web solutions. Passionate about continuous learning and staying up-to-date with the latest front-end technologies.

WORK EXPERIENCE

June 2021 - PRESENT

Infosys Ltd

January 2023 - PRESENT

Dataways Cargo Selection (Shipping & Logistic industry)

- Designed and developed three micro front ends using React and TypeScript, closely working with architects and business stakeholders.
- Created reusable components, which significantly reduced development efforts for teammates by 20%
- Integrated APIs and optimized the system architecture, resulting in a 30% reduction in unnecessary API calls, enhancing performance and resource efficiency.
- Developed and executed unit tests using React Testing Library (RTL) and Jest, ensuring robust code quality and reliability, while leveraging Redux for efficient state management across micro front ends.
- Worked in an Agile methodology environment, collaborating in sprints and regular stand-ups.
- Used GitLab for version control and code collaboration.

September 2021-December 2022

Mutual Fund Company

- Developed and maintained an internal application to streamline operations and improve internal processes for the company.
- Implemented state management using Redux, ensuring efficient handling of the application's state and seamless user experience.
- Enhanced the UI by utilizing CSS and HTML, improving the overall look and feel of the application for a more intuitive user experience.

INTERNSHIP

E-scale inventory Management app

- The Vegetable Inventory Management System optimizes vegetable management, transport, and sales.
- Truck Management: Add trucks with unique IDs, track loaded weights, and maintain detailed item lists.
- Sales Transactions: Record sales with generated transactions for accuracy.
- Reports and Analytics: Access transaction history to analyze sales trends and improve decisions

EDUCATION

Master of Technology -

Maulana Azad National institute of Technology

Bachelor In Engineering -

Sagar Institute of Research and Technology

SKILLS

- React.js
- JavaScript
- Typescript
- Tailwind
- Css
- Html
- Unit testing
- Jest
- Redux
- Git

TOOLS USED

- Jenkins
- Git lab
- Vs code
- Sonar qube
- Jira

LANGUAGES

- English
- Hindi
