Professional Summary

Motivated Java Developer with 3+ years of experience in designing and developing Java-based applications. Strong understanding of Core Java, OOP principles, Spring Boot, Hibernate, and RESTful APIs. Passionate about writing clean, efficient code and building scalable applications. Enthusiastic about learning new technologies and contributing to high-performing teams.

Technical Skills

- Programming & Frameworks: Java, Spring Boot, Hibernate, JPA, RESTful APIs
- Web Technologies: HTML, CSS, JavaScript, JSP, Servlets
- Databases: MySQL, PostgreSQL, MongoDB
- Tools & DevOps: Git, Docker, Jenkins, CI/CD, Maven
- Cloud & Deployment: AWS (EC2, S3, RDS), Azure
- Testing: JUnit, Mockito
- Methodologies: Agile (Scrum), TDD

Professional Experience

Java Developer

XYZ Tech Solutions | Jan 2021 – Present

- Developed microservices-based applications using Spring Boot and Hibernate, improving system scalability.
- Designed and implemented RESTful APIs for customer management, reducing response time by 30%.
- Worked on MySQL database optimization, enhancing query performance by 40%.
- Integrated JWT-based authentication using Spring Security for secure API access.
- Collaborated in Agile Scrum teams, participating in sprint planning and code reviews.
- Built CI/CD pipelines using Docker, Jenkins, and GitHub Actions to automate deployments.

Projects

Commerce Web Application (Java, Spring Boot, Hibernate, MySQL)

- Developed a full-stack eCommerce platform supporting product listings, cart management, and order processing.
- Built RESTful APIs for user authentication, product management, and order processing.
- Integrated Spring Security and JWT for secure access control.
- Used Hibernate with JPA to manage database transactions efficiently.
- Hosted application on AWS EC2, ensuring 99.9% uptime.

Tech Stack: Java, Spring Boot, Hibernate, MySQL, REST API, JWT Authentication

Employee Management System (Spring Boot, PostgreSQL, React.js)

- A web-based HR management system for handling employees, roles, and payroll.
- Developed CRUD APIs for employee management.
- Implemented pagination and sorting for scalable data retrieval.
- Integrated Docker containers for seamless deployment.

Tech Stack: Java, Spring Boot, Hibernate, PostgreSQL, React.js, Docker

Education

Bachelor of Science in Computer Science

University of California, Berkeley | 2020

Certifications

- Oracle Certified Java Programmer (OCJP)
- AWS Certified Developer – Associate
- Spring Framework Certification (Pivotal)
